

FOREST GLEN UTILITY

CUSTOMER NEWSLETTER | November 2023 | ISSUE NO.4

Construction Update

Forest Glen Water Resource Recovery Facility 1 Phase 4 will be energized by CPS early November followed by the commissioning process. The new facility will be operational by mid-November and will have the capacity to treat up to 175,000 gallons per day. The new membrane bio-reactor (MBR) facility will replace the existing facility, which will eventually be decommissioned. All remaining construction activities (final paving and other items) will be complete by the end of the year.

Landscape buffer design is currently in progress with our team, including community input and will be reported on once finalized.

Regulatory Updates

TCEQ TPDES WQ0015030001 - Minor Amendment application filed to update phases & renewal filed April 19, 2023. The application is in technical review.

PUCT Docket No. 54488 - CCN Expansion application filed December 16, 2022. FGU is working with Staff at the commission to deem application administratively complete.

Contact us

If you have any questions, comments or concerns regarding your sewer or reuse water services, please contact us during business hours. If you have a life threatening emergency, please dial 911.

If you have a sewer emergency, such as a reuse water quality issue, a broken reuse water main, or a sewer overflow please call:

BUSINESS HOURS:
(210) 702-2400

AFTER HOURS:
(726) 203-1489
